Classic Power

Zero-Gravity Recliner

PC-095

Perfect is a word that's often overused—but sometimes, it's the perfect description.

The Human Touch[®] Perfect Chair[®] PC-095 Classic Power Zero-Gravity Recliner artfully blends the best of aesthetics, technology and wellness in a seating experience that transcends even the highest standards of comfort. With the simple adjustment of a lever, the electric recline system eases the body into a virtually weightless position, relieving the soreness, tension and fatigue caused by the earth's constant gravitational pull.

Inspired by the zero-gravity chaise developed by NASA to support astronauts during their ascent into orbit, the Perfect Chair elevates the legs above the heart, relieving weight from the spine. Consistent with physician-recommended sitting posture, the chair's fixed-form seating position ensures maximum ergonomic posture at all recline angles. Beyond function, the Perfect Chair fits your sense of design as comfortably as it fits your body. With the clean lines of its newly designed tapered headrest and footrest and numerous color combinations of genuine leather, plush SöfSuede[®] and solid renewable plantation-grown parawood, this remarkable chair complements even the most sophisticated room décor—perfectly.

More Features for More Comfort

FEATURES:

- Exclusive nickel-plated glide rail ensures smooth recline motion
- Articulating headrest allows you to customize the optimum angle of comfort, maximizing neck support at any recline angle
- Tapered headrest and footrest offer a sleek design
- Luxurious aniline-dyed premium leather, supple bonded leather, or plush velvety SöfSuede®
- Built-in, self-inflating lumbar pillow allows customizable support

3-Year Limited Warranty

The weight is over.

The Perfect Chair is expertly engineered and crafted to defy gravity's adverse effects, placing the body in a position to restore its natural wellness. Incorporating only the finest designer materials and finishes, it's also pretty easy on the eyes.

ELECTRIC RECLINE SYSTEM

A smooth-functioning, high-performance recline system with whisper-quiet motors eases the chair from upright to full recline in less than 15 seconds. And you control your journey from sitting to floating with an unobtrusive, easy-to-use fingertip recline lever.

SOLID WOOD BASE

Using only 100% renewable, plantation-grown solid parawood, highly trained Human Touch master woodworkers hand-carve and hand-finish the signature balanced curves supporting the Perfect Chair. As one of the strongest woods on earth, the *Havea Brasiliensis* (rubber tree) ensures durability and beauty for years of use. Choose from three attractive finishes.

RUGGED FRAME AND RAILS

The high-tensile-strength steel body frame is powder-coated with a durable and protective surface that ensures a long life free from rust and discoloration. And the graceful, nickel-plated glide rail ensures smooth recline motion.

SUITS YOUR STYLE

Adorned with beautiful French triple-stitch patterns, the single-pad-set construction is a seamless blend of opulence, quality, and old-world craftsmanship. Available in a variety of colors in premium or bonded leather, or SöfSuede® upholstery.
